

Power your furniture, simply.

Your guide to OE's pluggable solutions.

Pluggable Solutions

Power your furniture simply with OE's pluggable solutions. OE's single plug, soft-corded systems allow ease of installation into most scenarios so you can power an array of furnishings.

Power a whole team from one starter cord

OE's pluggable solutions allow you to power up to eight Nema sockets in addition to a plethora of TUF-R USB A+C fast chargers, all from a single starter cord! OE's plug-and-play soft-corded solution allows for ultimate flexibility.

The Pluggable Solution

OE's PHASE unit installed on soft-seating.

OE's soft-corded systems are plug-and-play simple using our GST connectors and OCP (over-current protection) starter cords.

2 Way Adapter

2 way adapters route cords efficiently making it easy to connect up to eight Nema sockets, whether in-line or branched. Providing convenient power in meeting areas for laptops, tablets, and phones.

3 Way Adapter

For larger spaces, such as grouped workstations or small breakout spaces, OE's pluggable solutions negate the need for multiple starter cords. Simply connect your choice of power units with our 3 way adapter and power a whole team!

5 Way Adapter

For large user groups the 5 way adapter is the perfect solution. All for one and one plug for all!

Pluggable Components

GST Connector

The male & female GST connectors are the heart of OE's pluggable solutions making Plug-and-Play possible.

Starter Cord

The over-current protected starter cords connect OE's complete pluggable solution to the building's power via an outlet.

Interconnecting Cord

Interconnecting cords connect power units to adapters and starter cords.

2 Way Adapter

OE's 2-way adapter allows you to branch our pluggable solution in 2 directions (1 in 2 out.)

3 Way Adapter

OE's 3 way adapter allows you to branch our pluggable solution in 3 directions (1 in 3 out.)

5 Way Adapter

OE's 5 way adapter allows you to branch our pluggable solution in 5 directions (1 in 5 out.)
