

# Canister PSU

OE's Canister PSU is a dedicated 70W AC/DC power supply driving our TUF HP A+C (high-power) USB charging socket. Easily capable of powering today's laptops via the USB C port OE's TUF HP has plenty of power left to fast charge phones and tablets via the USB A port.

Canister PSU will fit into most OE power modules, installed next to the TUF HP A+C cartridge. The canister replaces a standard AC power socket removing the need for an external DC power source.

The Canister PSU blends high-power USB charging into your favorite OE products seamlessly. Dress up your chosen OE power module with an embossed "AC/DC" fascia or keep things clean with a smooth fascia. The Canister PSU pairs perfectly with the AC sockets in black or gray or gray.

Canister PSU meets the latest US level VI and EU ecodesign energy efficiency requirements.

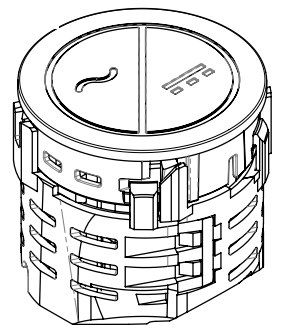

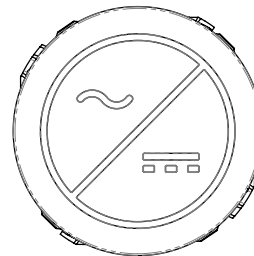

**Construction:**  
High strength fire retardant polycarbonate

**Colors:**  
Black or gray fascia  
Black rear body

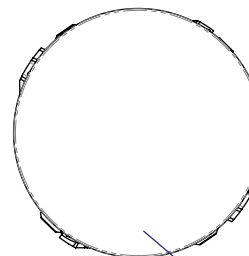

**Quality & Testing:**  
All Canister PSU modules are manufactured using ISO9001 quality controlled components and practices and are 100% tested before dispatch.

The perfect spot for your logo

## Technical Specifications

Specifications	
Input Voltage	100-230 VAC 50-60Hz
Rated Input Current	1.7A
Output Power	70W Max
Output Voltage	30V DC
Output Current Rated	2.34A
Standby Power	0.1W / 0.27W with TUF HP
Efficiency	93% Max
Over Current Protection	Yes
Short Circuit Protection	Yes
Over Temperature Protection	Yes
Certifications - Safety	UL/IEC 62368-1 : 2014
Certifications - EMC	EN IEC 61204-3 : 2018 FCC part 15 (B)
