

QF PORT

QF PORT makes adding high power USB charging and Data/AV access a snap. Designed with discreet clean lines, and available in a white or black textured finish, PORT compliments any surfaces.

PORT's simplicity coupled with its flexibility makes it the hands down choice for power and connectivity in any workspace. Designed to install in an industry standard 3.15"(80mm)* diameter opening, PORT provides a simple means to power a wide range of furniture such as desks, benches, booths, and café tables. In addition, QF PORT is capable of data and AV connectivity enabling easy access to network connections, projectors, and monitors.

Outfit PORT with one or two of our QF05 TUF-R HP high power charging modules and pair it with a concealed QF30 Power Supply or portable power QIKPAC battery, and PORT becomes the ultimate laptop power solution. Whatever you prefer as your base of operation, QIKFIT PORT has you covered.

Unique Selling Points

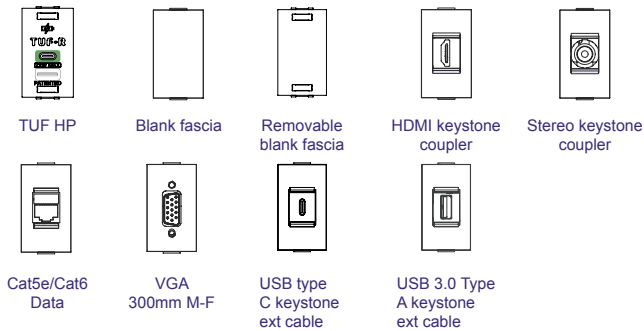

- High power USB charging 60W USB-C, 10W USB-A
- Wide range of Data & AV options
- Low profile design mounts in an 80mm opening
- Supports Animate QIKPAC & QIKFIT components
