pagoda

PAGODA is a stylish new solution from OE for supplying user-accessible AC power, USB charging, data, and AV connections to the conference table. Specify PAGODA with one of our LED accent lighting options for an even more distinctive look.

Not just stylish and functional but quick to install; PAGODA simply mounts via a standard 80mm grommet hole. Its high-quality finish defines PAGODA; the single-piece curved top available in brushed stainless steel sets it apart.
