

powerbox

- Choice of AC power, USB charging, data/AV and control features
- QIKTRAY compatible
- Customizable up to 9ft in length

powerbox

POWERBOX, as its name implies, is simple in design, but packs a punch. Customizable up to nine feet in length and made from extruded aluminum, POWERBOX can accommodate power, USB charging, data/AV, and specialty devices such as switches and over current protection.

With multiple mounting options, POWERBOX has virtually limitless possibilities. Think beyond office furniture. For example, when mounted vertically, POWERBOX is particularly suitable for racks or server cabinets.
